PROJECTS, SKILLS & INTERESTS

VKYD Labs (<https://lcf.vercel.app>) *April 2023*
An internal management tool for my younger brother's business. The business employs 18 developers and LCFR boosted the revenue by ~200% to \$6000/month.

CovAID (<https://krishgoel.com/projects/covaid>) *April 2021*
Co-founded CovAID, leading a team of 40 volunteers, to provide real-time, personally verified leads for all COVID-19 resources in Delhi and Kanpur. Successfully accomplished within 48 hours through efficient brute-force calling. Applauded by several newspapers and celebrities.

Eyena (<https://eyena.krishgoel.com/>) *May 2020*
Eyena is an IoT based smart mirror that measures your body temperature upon detecting your presence without any physical contact.

Programming: Proficient in Python 3, Data Structures and Algorithms, JavaScript, Node.JS, SvelteKit, ReactJS, and NextJS, MongoDB, SQL, Flask, Django, NumPy, Pandas and MATLAB.
